About Me

Software Engineer with 5+ years experience developing, testing, and maintaining enterprise software applications. Design and developed advanced applications from use cases and functional requirements

Experience

*For the record, , the beginning of my career as a programmer **until now** is still in the same place for over 5 years, and here it is :*

Odisys Indonesia – Senior Staff Developer (2017 – Present)

- Over the past year, I orchestrated and developed the frontend infrastructure, design and functionality for *Artos* new JavaScript-centric app powered by Vue.
- Crafted a scalable component library that enforced accessibility and fluency across the application.
- Built a multi-role user authentication system from the ground up with JavaScript.
- Implemented a client-side localization system for the entire app.
- Built a client-side multilingual system with solid navigation guards.
- Implemented fast and reliable data transformation and diffing mechanisms on the frontend for our data pipelines.
- Delivered an overall fast, yet accessible and silky smooth user experience in the app

Hobbies

- Reading 📖 (*book, articles about tech stuff, etc*)
- Fitness 🏃 (*to gain a life-balance & shape my mind*)
- Traveling 🌍

My Skills

Front End

- Next JS
- Nuxt JS
- SvelteKit
- Remix JS
- Styled Comp.
- Tailwind CSS
- Ionic

Back End

- Adonis JS
- Node JS
- Laravel
- Code Ignitor
- My SQL
- Mongo DB
- PostgreSQL
- Oracle PLSQL
